music is the only passport that matters

Independent label: epiclyclad

HOUSE	TECHNO	JAZZ FUSION	BLUES / GOSPEL-INFLECTED	ORCHESTRAL / MARCHING BAND
-------	--------	-------------	-----------------------------	-------------------------------

ARTIST STATEMENT

fwourck is an independent producer whose catalog runs through house, techno, jazz, and blues without settling in one lane — a genre-fusing style built on classical training (first chair euphonium, Detroit School of the Arts), HBCU marching band experience, and years of self-directed study across the world's musical traditions. The project name is intentionally unpronounceable and every track title follows a cipher-style naming convention — a catalog built to be discovered, not explained.

SYNC-READY BY DESIGN

- **One-stop rights:** fwourck controls 100% of composition and master rights on all solo releases — no split disputes, no clearance delays.
- **Instrumental versions exist for every track** as a matter of catalog policy, not an afterthought — the license framework separates the Instrumental Version (fully producer-owned) from any Vocal Version by design, so clean cues are always available for supervisors.
- **No uncleared samples.** Every sample on the catalog is cleared or excluded outright before release.
- **PRO-registered** (ASCAP, writer + publisher) — performance royalties flow correctly on any televised or broadcast placement.
- **Two full-length albums** released simultaneously across all major DSPs, with a structured, ongoing release pipeline behind them (not a one-off drop).

WHY THIS CATALOG FITS GAME / SPORTS / BRAND SYNC

The house and techno cuts are built for high-energy montage and gameplay placement — four-on-the-floor drive with orchestral and marching-band-derived percussion giving them a physical, stadium-ready weight that generic EDM library cuts don't have. The jazz and blues-inflected material offers emotional range for narrative or brand-story placements. Reference points: Kaytranada, Flying Lotus, Floating Points, DJ Koze.
